

NAME

dn – DN-11 ACU interface

DESCRIPTION

The *dn?* files are write-only. The permissible codes are:

- 0-9 dial 0-9
- : dial *
- ; dial #
- 4 second delay for second dial tone
- = end-of-number

The entire telephone number must be presented in a single *write* system call.

It is recommended that an end-of-number code be given even though not all ACU's actually require it.

FILES

- /dev/dn0 connected to 801 with dp0
- /dev/dn1 not currently connected
- /dev/dn2 not currently connected
